

UN-BRAIN-LEAVABLE! CRANIUM CONFERENCE OPENS

- *Felicity Entwhistle, psychic correspondent*

This week our fair city once again plays host to one of country's premier psychic conventions, the Cranium Conference (sponsored by the Cranium Shopping Mall), this year hosted by local Museford resident and Sensitive, Cassidy (21). The organisers of the conference, PSYCHE, have stated that "We hope to once again provide an opportunity for psychics in all walks of life to meet and discuss their experience of projection, make friends and network all in a safe supportive environment." Cassidy, when asked by this reporter about what it is like to be hosting such a prestigious gathering, responded "Yeah, this

is so totally cool! I can't wait to show everyone my Headspace!" The Cranium Conference will take place one a week for 3 hours, from 7 until 10pm, for 7 weeks. Whether this year's end of conference party can top last year's extravaganza remains a matter for speculation among Museford's psychic community. Although non-psychic receptives are unable to participate in the conference, PSYCHE encourages anyone interested in psychic assistance to contact Cassidy who can share their enquiry with conference attendees (*cont. pg. 23*)

ELECTION FEVER

A mayoral election has been official declared, the electoral commission has announced, with polling day set for five weeks time. Currently the only candidate declared is incumbent mayor Christopher Politick, who stated "I am confident that the hardworking people of Museford will see what I have achieved, and will continue to lend me their

support". However, with the mayor attracting criticism for not delivering on his promise of a "new Museford", as well as reports of scandal at the Town Hall, we can be sure that others will soon be throwing their hat into the electoral ring (*cont. pg 3*)
